PART II: Regulations

Introduction

Masters' International Speed Skating Competitions have been organized since 1991 in several countries (CAN, FIN, GER, ITA, NED, NOR, SUI, USA) generally by speed skating clubs and since 1994 promoted by the International Masters' Speed Skating Committee (IMSSC). The outstanding annual event is the Masters' International Speed Skating Games, the unofficial Masters World Allround Championships. Determination of the host country is through planning and voting of the IMSSC Members.

Every year the Masters' International Competitions are in the Official ISU Competition List as compiled by the ISU. Also listings of these events can be found in the International Masters' Speed Skating News, which is issued by the IMSSC in October, and in the internet under www.imssc.org .

Generally the Masters' International Speed Skating Competitions are held under the Rules of the International Skating Union (ISU). Since there are no special rules for Masters in the ISU Rules and the existing rules are not always applicable, here shall be issued additional rules for Masters' International Speed Skating Competitions. These rules have been implemented for more than ten years of Masters International Competitions. The establishment of uniform rules throughout the global Masters' community has become a pressing obligation. Current practice has been evolving in competitions promoted by the IMSSC.

It is the intention of the IMSSC that these Rules will be incorporated into the ISU Rules, for example as ISU Rule 277 of the Special Regulations Speed Skating.

Rule 1: Masters Definition

Masters are non-professional speedskaters (members of National teams and National selections excluded) from 30 years, the age being defined as age reached during the competition year 1st July till 30th June, competing in 5year age groups 30-34 (30), 35-39 (35), 40-44 (40), 45-49 (45), 50-54 (50), 55-59 (55), 60-64 (60), 65-69 (65), 70-74 (70), 75-79 (75), 75-79 (75), 80-84 (80), 85-89 (85), 90-94 (90) and higher (as high as necessary).

Rule 2: Competitions

2.1 Masters' International Speedskating Games and other Masters' International Speed Skating Competitions

2.1.1 Masters' International Speed Skating Games

The Masters' International Speed Skating Games shall be held every year with rotating country and location. They may be organized by a club or a National Speed Skating Association.

The distances for the Masters' International Speed Skating Games are:

Ladies	500 m, 1500 m, 1000 m, 3000 m	(age groups 30 – 65)
Ladies	500 m, 1000 m, 1500 m	(age groups 70 and higher)
Men	500 m, 3000 m, 1500 m, 5000 m	(age groups 30 – <u>60</u>)
Men	500 m, 3000 m, 1000 m, 3000 m	(age groups <u>65</u> and higher)

2.1.2 Masters' International Speed Skating Competitions

Masters' International Speed Skating Competitions will be held in different countries. They may be organized by a club or a National Speed Skating Association.

2.2 Entry

The official entry form of the competition is sent to the organizer via direct mail by the competitor, or through representation of the club/association the skater belongs. Every competing skater must be licensed in their own country.

Countries which enter to the Masters' Games on the national level have not to accept entries before the announcement of the Games has been issued in the International Masters' Speed Skating News "ICEOVAL" and in the IMSSC or IMSSG Webpage. If they accept entries electronically over their National Website they have to mark the electronically entry form that it is only valid for National participants.

2.3 Restriction of Participants

If the number of participants in a competition must be restricted, certain decisions will be made to handle selection process. Entries received earlier shall have priority of the participation. If quota are needed for Nations as determined by the IMSSC or the hosting country, each nation is to follow in principle to these practices, if not regulated in another manner by the respective National IMSSC Member, for example by limit times, best times, etc. and perhaps partially by wild cards (for example for participants disabled or for long standing participants).

2.4 Confirmation of Participation

A confirmation of participation may be organized as follows if written in the announcement of the competition: If an announced skater is not present at the drawing, he will be removed from the list of participants if he did not confirm participation to the organizer 36 hours to 12 hours before the drawing (arrival of the confirmation at the organizer) by written word (Telefax or Email or Telegram). The address for the confirmation is indicated in the official entry form.

2.5 Drawing and Ranking

Drawing at International Masters' Speed Skating Competitions, including Masters' International Speed Skating Games, must be done according to ISU Rule 228 for International Competitions and Rule 226, paragraph 3, for International Sprint Competitions.

Generally the age groups are drawn separately. If the number of competitors is very small in one or several of the five year age groups, neighbored 5year age groups may be joined together for drawing and speedskating. However final classification must be done separately in 5year age groups independant of the number of participants in an age group.

To recognize in the competition protocol the ranking of every 5year age group in joined 5year age groups also before the final classification, the name of the competitor in joined 5year age groups has to be supplemented by the age group, for instance "Otto Meier 55".

2.6 Seeding at Masters' Single Distance Races

At Masters' Single Distance Races seeding of skaters in their five year age groups is allowed according to their best times of the season, their best times of the last season or their estimated times. Generally the five year age groups are seeded separately. If the number of competitors is very small in one or several of the 5 year age groups, neighbored 5 year age groups may be joined together for seeding and speed skating. However final classification must be done separately in 5 year age groups independant of the number of Participants in a 5 year age group.

2.7 Restrictions of Participants in the Last Distance

If the time schedule requires limitation of participants in the last distance, a minimum number of skaters must be allowed to skate according to the following rule:

In the last distance 4 skaters of every class are always allowed to skate. If there are more than 4 skaters in the group, the rest of the skaters are divided by 2, and all full pairs are allowed to skate in addition to the basic 4. This will give the following number of skaters:

Number of skaters	Skaters on last distance
1 – 3	1 – 3
4 – 7	4
8 – 11	6
12 – 15	8
16 – 19	10
20 – 23	12
24 – 27	14
28 – 31	16
etc.	

2.8 Lap Counters at International Masters' Competitions

At International Masters' Competitions with quartet start in minimum two experienced and well trained lap scorers are mandatory and the counter signs shall be available in four colours (white, red, yellow and blue).

2.9 Recommendation for Overtaking

Overtaking takes place very often in races with quartet start. The competitor is recommended to overtake another competitor in the speed skating competition only on the outside if both are in the same track. That minimizes the danger of accidents. There is no ISU Rule that a skater who will be overtaken in a track has to go to the outside of the track.

2.10 IMSSC Fee

At Masters' International Games and Masters' International Competitions, promoted by the IMSSC, the competitor has to pay the IMSSC fee for the work of the IMSSC besides the starting fee. The amount of the fee will be decided by the IMSSC.

Rule 3: International Masters' Records (IMSSC Records)

3.1 Age groups

IMSSC Records are listed by the IMSSC for the age groups defined in Rule 1.
