Eligibility

To be eligible the skater must be member of a national speed skating federation recognized by the ISU and must have a license of his/her federation.

Drawing, Classification

Neighbouring five year age groups with small numbers of participants may be put together for drawing and speed skating in the competition (in these combined age groups the age group of each skater will be written behind his/her name in the protocol). The classification however will be done separately in 5 year age groups independent of the number of participants in an age group. The winner of the four-distance contest in his/her age group is the skater who has completed successfully all distances and has obtained the lowest total of points in his/her 5 year age group.

Recommendation to the competitor

The competitor is recommended to overtake another competitor in the speed skating competition only at the outside if both are in the same track. That minimizes the danger of accidents. There is no ISU Rule that a skater who will be overtaken in a track has to go to the outside of the track. Overtaking takes place very often in races with quartet start.

Prizes and Results

All participants, who skate successfully the competition without disqualification, obtain a certificate, a medal and a protocol with the results including starting times, lap times, accumulated lap times and end times.
